

SOUTH YORKSHIRE POLICE PRIVACY STATEMENT

PROBLEM SOLVING AND CRIME PREVENTION PROGRAMME

This Privacy Notice explains how and why South Yorkshire Police process your personal data, under Part 2, “general data” in respect of the Problem Solving and Crime Prevention Programme. This should be read in conjunction with the South Yorkshire Police Privacy Policy that can be found on the following link -

<https://www.southyorkshire.police.uk/media/1931/privacy-policy-for-syp-260618.pdf>

South Yorkshire Police collect your personal data on behalf of the national Problem Solving and Crime Prevention Programme, which was established in April 2020. Funding for the one-year programme of works was granted by the Home Office to build on the force’s previous programme, the Problem Solving and Demand Reduction Programme, which concluded in March 2020.

South Yorkshire Police is leading the programme on behalf of all police forces in England and Wales in order to transform ways of working across the police at a local, regional and national level.

The vision of the programme is to “create opportunities to reduce demand for police and partners by embedding a structured problem solving ethos and capability”.

What type of personal information do we process for this purpose?

The programme team will undertake a wide variety of activities throughout the programme in which your personal information may be collected. This includes:

- Images
- Videos
- Podcasts
- Presentations used by speakers
- Contact details of speakers and delegates (if they have opted in)
- Feedback information provided
- All information used in an application to the Tilley Awards

Where do we get the personal information from?

Personal information is provided by:

- Delegates and speakers at workshops and conferences
- Individuals that submit an application to the Tilley Awards
- Sponsors of any programme activities
- Police forces and partner agencies that make contact with the programme

Who do we share your personal information with?

Information processed by the programme team may be placed on the programme's Knowledge Hub space, which is a national repository and can be accessed by police forces and partners. Tilley Award applications, in their entirety, will be placed on this site. The page can be found on the following link: <https://knowledgehub.group/group/national-problem-solving-and-demand-reduction-programme>

Tilley Award applications will be shared with the POP Center, a US website that has historically housed all applications to the awards alongside applications to the Awards' international counterpart, the Goldstein Awards. Details on this can be found on the following link: <https://popcenter.asu.edu/>

The programme may also share your personal information with other police forces and with affiliated partner agencies, in order to achieve the programme's vision, detailed above.

How do we use your personal data?

Personal data will be used for the purpose of:

- Applying/sharing notable practice across police forces and partner agencies
- Media and marketing
- Future academic research
- Evaluation of the programme

How long will we store your personal data?

The Problem Solving and Crime Prevention Programme will hold all data processed until the end of the programme.

Data loaded onto the Problem Solving and Crime Prevention Knowledge Hub page and the POP Center website will be retained for the foreseeable future. Individuals may request for their information to not be loaded on to, or to be removed from, these platforms by contacting the platform administrators.

Your Information Rights

Please see the main South Yorkshire Police Privacy notice for full details on what information rights you have and how you can exercise these.
